

Job Description - Software Engineering Intern

About the Role

We are looking for a passionate **Software Engineering Intern – Full Stack & AI** to join our engineering team. This internship offers an opportunity to work on real-world applications involving full-stack development and modern AI technologies. You'll collaborate with the team on building scalable applications, backend services, and AI-driven solutions while gaining hands-on experience in production environments.

High-performing interns may be considered for a full-time opportunity.

Key Responsibilities

- Assist in developing and maintaining full-stack applications using the MERN stack
- Build and integrate backend APIs using Node.js, Express.js, Flask, or FastAPI
- Work with MongoDB for database operations and optimization
- Support implementation of AI-powered features and workflows
- Contribute to projects involving RAG systems, AI Agents, and LLM integrations
- Work with vector databases, embeddings, and document processing pipelines
- Debug issues and improve performance of applications
- Collaborate with engineering teams on feature development and deployment activities

Required Skills

- Hands-on experience with React.js, Node.js, Express.js, and MongoDB
- Good understanding of REST APIs and backend architecture
- Familiarity with Python frameworks such as Flask or FastAPI
- Basic understanding or project experience in:
 - RAG systems
 - AI Agents / Agentic workflows
 - LLM APIs and prompt engineering
- Familiarity with Git/GitHub and version control
- Strong problem-solving and debugging skills

Preferred Skills

- Exposure to LangChain, CrewAI, Semantic Kernel, or AutoGen
- Understanding of vector databases and embeddings
- Exposure to Azure/GCP, Docker, or deployment workflows
- Personal, academic, freelance, or internship projects are a plus

What We're Looking For

- Candidates who enjoy building and experimenting with technology
- Strong logical thinking and problem-solving ability
- Self-learners with curiosity toward modern AI technologies
- Good communication and collaboration skills
